Who we are

We are a community created by and for Latinas in Computing, with a mission of **promoting our representation and success in computing-related fields.**

LiC community was established, with the help of AnitaB.org, after a Birds of a Feather session at the 2006 Grace Hopper Celebration of Women in Computing.

We are part of AnitaB.org Systers Affinity Groups.

What we offer

- Inspire our community to bring positive social impact and change
- Promote opportunities for Latin American women in technology
- Provide resources and guidance to lead new initiatives
- Foster individualized mentoring for students, junior faculty and professionals
